

ASSA ABLOY: global intent, unclear Chicago need; qualify once

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: ZoomInfo, Apollo

91 Equinix and Data Center intent	64,000 employees worldwide	2 US infrastructure contacts (Apollo)	0 touches so far
STAGE Untouched. Qualification.	RUNNING NOW CTF SCORE - Tier B multichannel (Henry Hazzard), launched Oct 1-2	LAST TOUCH None	NEXT STEP Wed Oct 7: call task for Henry Hazzard (+1 704-226-6284); cadence email first

Bottom line

ASSA ABLOY is the Swedish access-solutions group (locks, doors, access control). In September ZoomInfo showed **Equinix 91, Data Center 91 and Cloud 91** (audience B), plus Networking/Telecom 80. There are no HubSpot contacts and no known Chicago facility. Apollo found two US infrastructure managers with verified emails: **Henry Hazzard (Network Manager, North Carolina)** and **Justin Lynch (Infrastructure Manager, Iowa)**. Ask one question about Chicago before investing more.

What ASSA ABLOY is, in one analogy

It's a huge house where we can't tell which room is in Chicago. Ask the building manager before you start knocking on doors.

Channel: Email Thu Oct 8 | Subject: Does ASSA ABLOY use Equinix Chicago?

Henry, quick question: does ASSA ABLOY have colocation or offices in the Chicago area? Crosstown owns underground fiber on-net at Equinix and Digital Realty there, mapped to the conduit. If it's relevant, I'll send the map; if not, thanks anyway.

The plan
