

EeroQ: a small quantum hardware startup; one CEO email

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: ZoomInfo, Apollo

~15 employees	2017 founded	0 ZoomInfo signals	0 touches so far
STAGE Untouched. Low priority.	RUNNING NOW CTF SCORE - Tier A call-first (David Rees (COO)), launched Oct 1-2	LAST TOUCH None	NEXT STEP Cadence running: call, then email, then LinkedIn

Bottom line

EeroQ is a 15-person startup building quantum chips that use **electrons on superfluid helium**. HubSpot lists Chicago; ZoomInfo lists New York. It has no signals. Apollo shows a **CEO (Nick F.)** and a **Head of Capital Markets**. At this size, the CEO decides. Confirm the Chicago lab first, then send one friendly note. This is a long-term ecosystem relationship, not a near-term deal.

What EeroQ is, in one analogy

EeroQ is a seedling. Water it lightly now; it may be a tree by the time it needs fiber.

Channel: Email after confirming | **Subject:** Chicago fiber when EeroQ needs it

Hi, Crosstown owns underground fiber in Chicago and supports the city's quantum ecosystem. No ask today; when EeroQ needs a lab connection or a diverse path, I'd be glad to help.

The plan
