

Netrality: 717 S Wells, and a PTC conversation to finish

Partner activation plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, ZoomInfo

717 S Wells St: Netrality Chicago	Jan 14 Dan Jeschke reply (PTC)	0 contacts in HubSpot	0 joint deals logged
STAGE Partner: conversation started at PTC, outcome not logged.	RUNNING NOW None. Amber Caramella removed from Warm Network	LAST TOUCH Jan 15: you replied to Dan Jeschke about meeting Mike at PTC	NEXT STEP Hold: check with Mike whether Netrality is still relevant before any outreach

Bottom line

Netrality runs interconnection-dense data centers, including **717 S Wells in Chicago**. In January you pitched **Amber Caramella (CRO)** and **Dan Jeschke (SVP Sales)** on supporting connectivity at 717 S Wells; **Dan replied that it was great to meet Mike (Crosstown's CEO) at PTC** and offered times. The outcome wasn't logged, and neither contact is in HubSpot. Find out what happened at PTC, add both contacts, and restart.

What Netrality is, in one analogy

Netrality is a busy neighborhood market downtown. If our road reaches its loading dock, every vendor inside can ship more.

How the access path should run

Messages, by contact

1. Dan Jeschke SVP Sales

Why them: Warm thread.

Channel: Email **Mon Oct 5** | **Subject:** Following up from PTC: 717 S Wells

Dan, picking up our January thread after PTC with Mike. Crosstown owns underground fiber on-net at Cermak, Elk Grove and Polk, mapped to the conduit. I'd still like to explore connecting 717 S Wells for your tenants. Could we find 30 minutes this month?

The plan

When	Move	Notes
Now	Hold all outreach; confirm relevance with Mike first.	Decides whether the rest of this plan runs.
