Bottom line

3Cloud is a **leading Microsoft Azure partner** (about 1,200 people) headquartered in **Downers Grove**, next to Lombard. It designs Azure data, AI and cloud platforms for enterprises. Those clients often need **dedicated, diverse connectivity to Azure on-ramps (ExpressRoute) in Chicago**. ZoomInfo shows Data Center 91 (audience A). The right first contact is **James Truitt (Partnerships)**, then the infrastructure leaders.

What this partner is, in one analogy

3Cloud builds the house in the cloud; Crosstown builds the private driveway to it.

James, when 3Cloud clients in Chicago need private, diverse paths to Azure on-ramps, Crosstown owns that underground fiber (Cermak, Elk Grove, Polk), mapped to the conduit. We're 10 minutes from Downers Grove. Open to a co-sell conversation?
