

Acero Schools: data center intent at 99; find the technology lead

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: ZoomInfo, Apollo

99 Data Center intent (Sep 26)	82 Networking/Telecom intent	~700 staff	0 contacts found
STAGE Untouched. Owner unknown.	RUNNING NOW Not in any Lemlist campaign	LAST TOUCH None	NEXT STEP Fri Oct 9: find Acero's Director of Technology

Bottom line

Acero is a Chicago charter network of about 700 staff (office at **2050 N Natchez**). ZoomInfo shows **Data Center 99** and **Networking/Telecom 82** in late September, a sign of a network project. Apollo found no technology staff, only leadership (CEO Richard R.). Find the technology lead, and tie the pitch to the FY2027 E-Rate cycle.

What a school network is, in one analogy

A charter network is a chain of small branch offices. Each campus is a branch, and the WAN between them is the hallway. If one hallway is out, a whole school is offline on test day.

Signals worth citing

Signal	Source	So what for the opener
Data Center 99 (B), Sep 26; Net/Telecom 82 (B), Sep 19	ZoomInfo intent	Network project.

E-Rate	Schools buy WAN and internet circuits through the federal E-Rate program. Funding year 2027 requests (Form 470) post this fall and winter, and vendors bid on them. Confirm Crosstown has an E-Rate service provider ID (SPIN) before pitching.
