

Apple: a VIP campaign that needs a tighter list

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo

9 network/data center intent topics in Sept	95 Colocation and Data Center intent	30+ leads in CTF VIP - Apple	1 unsubscribe (Rick Rowe)
STAGE Prospect (VIP). No deal.	RUNNING NOW CTF VIP - Apple: step 1 "Chicago dark fiber, direct from the owner" sent Sep 30	LAST TOUCH Sep 30: email 1 to 30+ leads; Rick Rowe opened, then unsubscribed; Vaj Bharamshetty bounced	NEXT STEP Fri Oct 2: cut the list to the US backbone and data center team before step 2

Bottom line

Apple's September intent was broad: **Colocation 95, Data Center 95, Network Infrastructure 92, Equinix 91 (audience A), Networking Solutions 89 and Network Redundancy 83**. A VIP campaign went out Sep 30 to 30+ people, but **many are wrong**: China sales, Middle East telecom, Japan/Korea infrastructure. One data center facilities engineer (**Rick Rowe**) **opened and unsubscribed**, and one address bounced. Before step 2, cut the list to the people who buy long-haul and metro fiber: **Lance Carlson (Network Operations, Optical WAN), Faraz Mahmood (Backbone Network Engineer), Garrett Locascio (Director, Planning and Infrastructure)** and **Darin Divinia (Sr Director, Data Centers)**.

What Apple is, in one analogy

Apple is a stadium: thousands of doors, and only one is the loading dock where fiber gets delivered. Stop knocking on the ticket windows.

Signals worth citing

Signal	Source	So what for the opener
Colocation 95, DC 95, Network Infrastructure 92, Networking Solutions 89, Network Redundancy 83 (B)	ZoomInfo intent	Broad infrastructure research.
Equinix 91 (A), Sep 19	ZoomInfo intent	We're on-net at Equinix Chicago.
Rick Rowe opened, then unsubscribed (Sep 30)	Lemlist	Facilities is the wrong audience; respect the opt-out.

Work already in motion

The VIP campaign is live and needs pruning.

When	Channel / campaign	What happened	Read
Sep 30	CTF VIP - Apple	Step 1 "Chicago dark fiber, direct from the owner" to 30+ leads	1 open; 1 unsubscribe; 1 bounce; 1 out of office
Sep 30	HubSpot	Apple email opened	-

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Lance Carlson	Network Operations Engineer, Optical WAN (HubSpot)	n/a	Runs optical long-haul and metro.	VIP step 1
Faraz Mahmood	Backbone Network Engineer (HubSpot)	n/a	Backbone.	VIP step 1
Garrett Locascio	Director, Planning and Infrastructure (Lemlist)	n/a	Plans capacity.	VIP step 1
Darin Divinia	Sr Director, Data Centers (Lemlist)	n/a	Data center owner.	VIP step 1
Timothy Campos	VP and CIO (Lemlist)	n/a	Corporate IT. Hold.	VIP step 1

Not worth chasing for this goal

China and Middle East sales, Japan/Korea infrastructure, network security directors, IT directors for retail or corporate, and Rick Rowe (unsubscribed, don't contact).

How the access path should run

Messages, by contact

1. Lance Carlson Network Operations Engineer, Optical WAN

Why them: Buys and runs optical fiber.

Channel: Personal email Tue Oct 6 (replace VIP step 2) | Subject: Chicago dark fiber for Apple's optical WAN

Lance, Crosstown owns underground dark fiber in Chicago, on-net at Equinix CH1/CH2/CH4 at 350 E Cermak and CH3 in Elk Grove, mapped to the conduit. If Apple's optical WAN needs a diverse Chicago segment, I can share the KMZ so you can see it against your current routes.

2. Garrett Locascio Director, Planning and Infrastructure

Why them: Capacity planning owner.

Channel: Email Thu Oct 8 | Subject: A Chicago segment for your redundancy plans

Garrett, your team has been researching network redundancy. If Chicago is on that list, Crosstown can provide dark fiber IRUs on routes we own and can document to the conduit. Worth a short call?

The plan

When	Move	Notes
Fri Oct 2	Remove the non-US and non-network leads from CTF VIP - Apple; suppress Rick Rowe.	Required before step 2.
Tue Oct 6	Personal email to Lance Carlson.	-
Thu Oct 8	Email Garrett Locascio.	-
Mon Oct 12	Email Darin Divinia and Faraz Mahmood.	-
Week of Oct 26	Goal: one technical conversation.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 9	List cleaned	Lemlist audit
Oct 23	Reply from a backbone or planning lead	Logged
Dec 15	Technical review held	Meeting logged

Guardrails

- Respect the unsubscribe; never re-add Rick Rowe.
- Credits used: ZoomInfo company and signals for 1 company.
