

Getting to Baseten's compute supply team

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo, Apollo

40x token volume growth year on year (Sep 15)	\$1.5B Series F at \$13B (Jun-Jul 2026)	91 Cloud Computing intent, audience A (Sep 12)	1 rejected call (Sep 29)
STAGE Wave C prospect. No deal.	RUNNING NOW CTF ABM - Baseten (Wave C), 8 leads	LAST TOUCH Sep 29: call to Jonathan Morris rejected	NEXT STEP Mon Oct 5: email Ketan Khatri (Head of Compute Supply Operations)

Bottom line

Baseten is one of the fastest-growing AI inference platforms: **token volume up 40x and revenue up 10x in a year**, a **\$1.5B Series F at \$13B**, an acquisition (Blaxel, Sep 10) and a new CMO (Sep 25). Operations hiring is at a 12-month high with 'vendor relationship management' in the job descriptions. Your sequence went to engineers and the Head of Infrastructure; the Sep 29 call to an SRE was screened and rejected. The person who buys capacity is new: **Ketan Khatri, Head of Compute Supply Operations** (Jul 2026, ex-NVIDIA Director of Infrastructure Strategy, Planning and Delivery). He and **Colin McGrath (Head of Infrastructure)** are the plan.

What Baseten is, in one analogy

Baseten is a power utility for AI models: customers flip a switch and inference runs. Its supply team buys generation capacity (GPUs) wherever it can get it, and every new plant needs a line to the grid.

How the access path should run

Messages, by contact

1. Ketan Khatri Head of Compute Supply Operations

Why them: The buyer, new in role.

Channel: Email Mon Oct 5 | Subject: Connectivity for Baseten's next capacity

Ketan, congrats on the move from NVIDIA. When Baseten secures new GPU capacity, does your team also source the fiber between sites, or is that left to the provider? I own underground fiber in Chicago, on-net at 350 E Cermak and Elk Grove, and want to be a known option when it matters.

2. Herleen Kaur Global Capacity Manager

Why them: Day-to-day sourcing.

Channel: Email Wed Oct 7 | Subject: Chicago capacity

Herleen, is any of Baseten's capacity in or near Chicago today, or planned? If yes, I'd like to share a map of our fiber so your team knows the options.

The plan

When	Move	Notes
Fri Oct 2	Remove Morris and SRE/IT adds from Wave C.	-
