

CacheFly: a CDN headquartered in Elk Grove, with a February thread to restart

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo, Apollo

Elk Grove HQ, 2200 Busse Rd	Feb 20 first email to Michael Sparks	2 CacheFly contacts in HubSpot	0 replies so far
STAGE Prospect. No deal.	RUNNING NOW CTF ENT - Practitioners (Michael Sparks, Benjamin Collet), added Sep 30	LAST TOUCH Feb 20: "Fiber Coverage for CacheFly's Chicago Sites" (no follow-up logged)	NEXT STEP Tue Oct 6: personal follow-up to Michael Sparks on the February email

Bottom line

CacheFly is a 22-person CDN (3,500 customers, 80+ countries) headquartered at 2200 Busse Rd in Elk Grove Village, near Equinix CH3, where Crosstown is on-net. You emailed **Michael Sparks, Procurement and Infrastructure Manager**, on Feb 20 about fiber for CacheFly's Chicago sites, and it was never followed up. He and **Benjamin Collet (Senior Network Engineer)** were added to Practitioners on Sep 30. ZoomInfo shows no signals; a firm this small rarely does. Pick the February thread back up with a personal note, not a sequence.

What CacheFly is, in one analogy

CacheFly is a neighbor you waved at in February and never called back. Walk over and finish the conversation.

Signals worth citing

Signal	Source	So what for the opener
HQ at 2200 Busse Rd, Elk Grove Village	ZoomInfo	Next to our Elk Grove footprint.
Michael Sparks, Procurement and Infrastructure Manager	Apollo, HubSpot	Buyer; emailed Feb 20.
CDN with Chicago sites	HubSpot (Feb email)	Fiber between PoPs is core.

Work already in motion

A February email that was never followed up, and a fresh enrollment.

When	Channel / campaign	What happened	Read
Feb 20	HubSpot email	"Fiber Coverage for CacheFly's Chicago Sites" to Michael Sparks	No reply, no follow-up
Sep 30	CTF ENT - Practitioners	Michael Sparks, Benjamin Collet enrolled	Queued

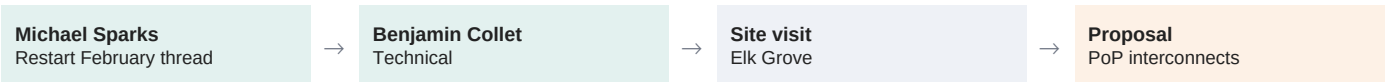

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Michael Sparks	Procurement and Infrastructure Manager (Apollo)	Elk Grove area	Buyer.	Emailed Feb 20. michael.sparks@cachefly.com
Benjamin Collet	Senior Network Engineer (HubSpot)	n/a	Technical.	Practitioners, Sep 30

Not worth chasing for this goal

-

How the access path should run

Messages, by contact

1. Michael Sparks Procurement and Infrastructure Manager

Why them: Restart the thread personally.

Channel: Reply to the Feb 20 email, Tue Oct 6 | Subject: Re: Fiber Coverage for CacheFly's Chicago Sites

Michael, I dropped the ball after my February note, sorry. We're minutes from you in Elk Grove: Crosstown is on-net at Equinix CH3 and at 350 E Cermak, with underground fiber mapped to the conduit. Happy to swing by Busse Rd with the map. Does next week work?

2. Benjamin Collet Senior Network Engineer

Why them: Technical.

Channel: Email Thu Oct 8 | Subject: Chicago conduit map (KMZ)

Benjamin, here's an offer of our Chicago KMZ (Elk Grove and Cermak) so you can see where we could link CacheFly's sites. Want it?

The plan

When	Move	Notes
Fri Oct 2	Pause the Practitioners steps for Sparks (switch to personal).	-
Tue Oct 6	Reply on the Feb 20 thread.	-
Thu Oct 8	Email Benjamin Collet.	-
Week of Oct 12	Drop by in person (Elk Grove).	-
Nov	Proposal for PoP interconnects.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 16	Reply from Sparks	Logged
Oct 23	Visit held	Meeting logged
Nov 30	Quote requested	Deal created

Guardrails

- Small company; keep it personal, no automation.
- Credits used: ZoomInfo company and signals for 1 company; Apollo search.
