

Clearwater: newly private, owns Enfusion's Chicago office, and researching data centers

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, ZoomInfo, Apollo

99 Data Center intent (Sep 12)	\$8.4B take-private closed Jun 25	1 CWAN contact in HubSpot	0 touches so far
STAGE Untouched prospect. No deal.	RUNNING NOW Not in any Lemlist campaign (sister account Enfusion is)	LAST TOUCH None on CWAN; Enfusion sequence mostly bounced	NEXT STEP Tue Oct 6: email Sung Chang (Manager/Lead, Network Engineering)

Bottom line

Clearwater (CWAN) is a \$826M investment-software company that **went private in an \$8.4B deal led by Permira and Warburg Pincus on Jun 25**. It owns **Enfusion**, whose Chicago office at 125 S Clark is also on your list. In September ZoomInfo recorded **Data Center intent 99, Bandwidth 93 and Networking/Telecom 91**. New private-equity owners plus a recent acquisition usually means a consolidation project: offices, data centers and circuits get rationalized. The one network contact is **Sung Chang, Manager/Lead of Network Engineering** (from Enfusion, now CWAN). Run CWAN and Enfusion as one account.

What CWAN is, in one analogy

CWAN just bought the house next door and got new landlords. The new landlords will want one set of pipes, not two, and that's when you show up with the plumbing map.

Signals worth citing

Signal	Source	So what for the opener
Data Center 99 (Sep 12), Networking/Telecom 91 (Sep 5), Bandwidth 93 (Sep 26)	ZoomInfo intent	Strong, current network research.
Taken private by Permira and Warburg Pincus, \$8.4B, Jun 25	ZoomInfo news	New owners, cost and integration review.
Q1 revenue +74%; ARR \$872M; three AI products launched Jun 3	ZoomInfo news	Growth means capacity.
Owns Enfusion (Chicago, 125 S Clark)	ZoomInfo, HubSpot	One combined Chicago story.

Work already in motion

No direct activity. The Enfusion plan covers the sister account, whose Lemlist sequence mostly bounced.

When	Channel / campaign	What happened	Read
Sep 28-29	Enfusion ABM (sister)	Xier Li added, email bounced Sep 29; Baisakhi Sen 2 emails, no reply	No valid network contact
-	CWAN	No HubSpot or Lemlist activity	Fresh

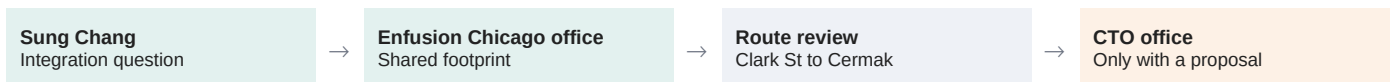

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Sung Chang	Manager/Lead, Network Engineering (HubSpot, Apollo)	n/a	Owens the network across Enfusion and CWAN.	Not contacted. sung.chang@clearwateranalytics.com
Souvik Das	CTO (ZoomInfo news)	Boise	Executive sponsor; only later.	Not contacted. Hold

Not worth chasing for this goal

The sales-side scoops (GTM tools, sales alignment) are not our buyer. Enfusion operations and HR staff from Apollo are not buyers.

How the access path should run

Messages, by contact

1. Sung Chang Manager/Lead, Network Engineering

Why them: The network owner across both companies.

Channel: Email Tue Oct 6 + LinkedIn | **Subject:** Chicago paths as Enfusion and CWAN combine

Sung, with the take-private closed and Enfusion now part of CWAN, I'd guess the Chicago circuits are getting a fresh look. Crosstown owns underground fiber on-net at 350 E Cermak and Elk Grove, a short run from 125 S Clark, mapped to the conduit. Happy to send the KMZ so you can compare against today's paths.

The plan

When	Move	Notes
Tue Oct 6	Email Sung Chang; LinkedIn connect.	Mention Enfusion, not the deal value.
Fri Oct 9	Pause the stale Enfusion steps so CWAN is one thread.	-
Tue Oct 13	Call the Chicago office main line and ask for network ops.	-
Week of Oct 19	Goal: route review with Sung.	-
Nov	If silent, run an Apollo search for CWAN infrastructure directors.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 16	Reply from Sung	Logged
Oct 30	Route review held	Meeting logged
Dec 15	Quote requested	Deal created

Guardrails

- Treat CWAN and Enfusion as one account, with one thread and one owner.
- Credits used: ZoomInfo company and signals for 1 company; Apollo search.
