

DPI: the University of Illinois' Chicago tech hub; find the IT lead

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: ZoomInfo

200 S Wacker Dr, Chicago	~151 staff	0 ZoomInfo signals	0 contacts found
STAGE Untouched. Owner unknown.	RUNNING NOW Not in any Lemlist campaign	LAST TOUCH None	NEXT STEP Fri Oct 9: ask Mike Smeltzer (UIUC) who runs DPI's network

Bottom line

DPI is the University of Illinois System's Chicago hub for AI, quantum and computing research and workforce programs (about 151 staff, **200 S Wacker**). There are no signals and no contacts. Its network likely runs through University of Illinois IT, so the fastest way in is a **referral from the UIUC network leaders** in the NCSA plan. Pair the two accounts.

What DPI is, in one analogy

DPI is a satellite office of a big family. Ask the family's IT person who set up its connection.

How the access path should run

Why them: Owner.

Channel: Email after referral | **Subject:** Chicago fiber for DPI at 200 S Wacker

Hi, Crosstown owns underground fiber in Chicago, a short run from 200 S Wacker to 350 E Cermak, mapped to the conduit. If DPI's research traffic needs a diverse path, I'd be glad to share the map.

The plan

When	Move	Notes
Fri Oct 9	Add a DPI question to the NCSA email to Mike Smeltzer.	-
Late Oct	Email the DPI lead once named.	-

What progress looks like (for management)
