

DataQuest Cx: verify or disqualify

Account review for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot

0 contacts	0 verified company match	0 touches	10 min to resolve
STAGE Data quality: verify or disqualify	RUNNING NOW None	LAST TOUCH None	NEXT STEP Fri Oct 9: verify the company, or mark Disqualified

Bottom line

The Sep 28 enrichment check found no Apollo match; the closest ZoomInfo match is a 6-person "DataQuest" in Schaumburg, which may not be this account. There's nothing to sell to until the record is fixed. Spend ten minutes confirming the real company and domain; if you can't, **mark it Disqualified (bad data)** so management sees a clean book.

What this record is, in one analogy

It's an envelope with a smudged address. Either fix the address or return it to sender.
