

Group One: a Chicago CTO, and no one has asked him yet

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, ZoomInfo, Apollo

Chicago CTO based here	0 ZoomInfo signals	1 Group One contact in HubSpot	0 touches so far
STAGE Untouched prospect. No deal.	RUNNING NOW Not in any Lemlist campaign	LAST TOUCH None	NEXT STEP Tue Oct 6: email Ryan Rastedt (CTO)

Bottom line

Group One is an options market maker headquartered in Philadelphia with a large trading floor in Chicago. It shows no ZoomInfo signals. Apollo found **Ryan Rastedt, CTO, based in Chicago**. He has been at Group One since 2016 and is reachable at a verified email. HubSpot holds only one network engineer, Wesley Caballero. No one has touched the account. A direct, local note to the CTO is the whole plan.

What Group One is, in one analogy

Group One is a neighbor you've never knocked on: same city, same street (the CME), and the person who decides is home.

Signals worth citing

Signal	Source	So what for the opener
No intent, news or scoops	ZoomInfo	No trigger. Lead with being local.
Ryan Rastedt, CTO since ~2020; at Group One since 2016	Apollo	Long tenure; owns technology end to end.
Wesley Caballero, Network Engineer	HubSpot	Technical partner.

Work already in motion

No activity yet.

When	Channel / campaign	What happened	Read
-	-	No HubSpot or Lemlist activity	Fresh

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Ryan Rastedt	CTO (Apollo)	Chicago	Decision maker.	Not contacted. ryan.rastedt@group1.com (verified)
Wesley Caballero	Network Engineer (HubSpot)	n/a	Technical.	Not contacted

Not worth chasing for this goal

No one else identified. Run an Apollo search for network or infrastructure managers if both are silent.

How the access path should run

Ryan Rastedt Local CTO note	→	Wesley Caballero Technical detail	→	Route review -	→	Proposal -
--------------------------------	---	--------------------------------------	---	-------------------	---	---------------

Messages, by contact

1. Ryan Rastedt CTO

Why them: Chicago-based decision maker.

Channel: Email Tue Oct 6 | Subject: A Chicago fiber question from down the road

Ryan, I'm with Crosstown Fiber in Lombard. We own underground fiber on-net at 350 E Cermak and Elk Grove, mapped to the conduit. One question: are Group One's Chicago paths verified diverse at the duct, or just by carrier name? If it's worth checking, I'll bring the map to your office.

2. Wesley Caballero Network Engineer

Why them: Technical second touch.

Channel: Email Tue Oct 13 | Subject: Chicago conduit map (KMZ)

Wesley, I can send our Chicago route map in KMZ so you can check current circuits for shared paths. Want it?

The plan

When	Move	Notes
Tue Oct 6	Email Ryan Rastedt.	-
Thu Oct 8	LinkedIn connect to Rastedt.	-
Tue Oct 13	Email Wesley Caballero.	-
Week of Oct 19	Offer an in-person drop-by.	-
Nov 2	If silent, Apollo search for more contacts.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 20	Reply from Rastedt or Caballero	Logged
Nov 6	Meeting held	Meeting logged
