## Bottom line

IQMP is the **Illinois Quantum and Microelectronics Park**, a purpose-built campus in Chicago for quantum and microelectronics companies, researchers and suppliers. Its own staff is small (about 11), but it is the **landlord and planner for a whole ecosystem**. Several quantum accounts on your list (Inflection, Diraq, Pasqal, Quantum Machines, qBraid, EeroQ, memQ) are in the same ecosystem. **Philip Makotyn joined as Deputy CTO in June 2026** (ex-President of Vexlum; ran CU Boulder's CUBit quantum initiative). Early campus fiber decisions get made by people like him. Treat IQMP as a **strategic partner**: become the campus's diverse fiber option, and the tenants follow.

## What IQMP is, in one analogy

IQMP is a new neighborhood being platted. Whoever lays the water mains before the houses go up serves every house for decades.

## Signals worth citing

| Signal                                                       | Source   | So what for the opener                              |
|--------------------------------------------------------------|----------|-----------------------------------------------------|
| Purpose-built quantum and microelectronics campus in Chicago | ZoomInfo | Greenfield connectivity needs.                      |
| Philip Makotyn, Deputy CTO since Jun 2026                    | Apollo   | New technical leader shaping campus infrastructure. |
| No ZoomInfo intent or scoops                                 | ZoomInfo | Small staff; signals show up at tenants instead.    |

## Work already in motion

No activity.

| When | Channel / campaign | What happened                  | Read  |
|------|--------------------|--------------------------------|-------|
| -    | -                  | No HubSpot or Lemlist activity | Fresh |

## Who to reach, in order

| Contact        | Title (source)                            | Where   | Why they matter        | Status / email               |
|----------------|-------------------------------------------|---------|------------------------|------------------------------|
| Philip Makotyn | Deputy CTO (Apollo)                       | Chicago | Campus technology.     | Not contacted. LinkedIn only |
| (to find)      | Campus infrastructure or real estate lead | Chicago | Utilities and conduit. | Search                       |

## Not worth chasing for this goal

Communications and events staff.

## How the access path should run

## Messages, by contact

### 1. Philip Makotyn Deputy CTO

*Why them: New technical leader; shapes campus infrastructure.*

**Channel: LinkedIn Tue Oct 6 | Subject: (connection note)**

Philip, congrats on the IQMP role. Crosstown owns underground fiber in Chicago and maps every duct. As tenants arrive, diverse paths to Cermak and the research networks will matter. I'd value 20 minutes to understand the campus connectivity plan.

## The plan

| When           | Move                                                              | Notes                      |
|----------------|-------------------------------------------------------------------|----------------------------|
| Fri Oct 2      | Ask engineering for the nearest Crosstown route to the IQMP site. | Needed before any promise. |
| Tue Oct 6      | LinkedIn note to Philip Makotyn.                                  | -                          |
| Mon Oct 12     | Find IQMP's infrastructure or real-estate lead (ZoomInfo).        | -                          |
| Week of Oct 26 | Goal: campus connectivity conversation.                           | -                          |
| Q1 2027        | Tenant referral program with IQMP.                                | -                          |

## What progress looks like (for management)

| By     | Milestone                   | How we will know |
|--------|-----------------------------|------------------|
| Oct 20 | Makotyn accepts or replies  | Logged           |
| Nov 30 | Campus connectivity meeting | Meeting logged   |

## Guardrails

- Confirm route distance before discussing service.
