

Infleqtion: quantum networking with Cisco, and an IT infrastructure manager from AT&T

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo, Apollo

30 logical qubits announced (Sep 24)	Sep 10 Cisco quantum-networking collaboration	157% top-line growth (reported)	0 replies so far
STAGE Prospect. No deal.	RUNNING NOW CTF ENT - Leaders (William Rollins), Sep 30	LAST TOUCH Sep 30: enrollment	NEXT STEP Tue Oct 6: email Kyle Hogan (IT Infrastructure Manager)

Bottom line

Infleqtion builds neutral-atom quantum computers and sensors (about 203 people, Colorado). In September it announced **30 entangled logical qubits** and a **joint R&D collaboration with Cisco** to link quantum processors into **distributed networks**. Distributed quantum networks run on fiber, which makes this the most fiber-relevant news in the quantum group. It is also hiring operations staff at a 12-month high. **William Rollins (Director of IT)** is in Leaders; Apollo added **Kyle Hogan, IT Infrastructure Manager**, a former AT&T network project manager. Confirm Infleqtion's Illinois footprint, then position Chicago dark fiber for its testbeds.

What Infleqtion is, in one analogy

Infleqtion is building computers that talk over light. Its future network is literally made of the glass we own.

Signals worth citing

Signal	Source	So what for the opener
Cisco joint R&D on distributed quantum networking (Sep 10)	ZoomInfo scoop	Fiber-based networking need.
30 entangled logical qubits; roadmap to 100 by 2028	ZoomInfo scoop	Scaling.
Operations and finance roles at 12-month highs	ZoomInfo scoop	Growing.

Work already in motion

One Leaders enrollment.

When	Channel / campaign	What happened	Read
Sep 30	CTF ENT - Leaders	William Rollins (Director of IT)	No reply yet

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Kyle Hogan	IT Infrastructure Manager (Apollo); ex-AT&T	Colorado	Infrastructure owner.	Not contacted. kyle.hogan@infleqtion.com (verified)
William Rollins	Director of IT (HubSpot)	n/a	IT lead.	Leaders, Sep 30
Pranav Gokhale	CTO and co-founder (Apollo)	n/a	Quantum networking sponsor.	Hold

Not worth chasing for this goal

Proposal managers and sales.

How the access path should run

Messages, by contact

1. Kyle Hogan IT Infrastructure Manager

Why them: Infrastructure owner; carrier background.

Channel: Email Tue Oct 6 | Subject: Dark fiber for Infleqtion's Chicago work

Kyle, congratulations on the Cisco collaboration. Distributed quantum networks need dark fiber you can trust end to end. Crosstown owns underground fiber in Chicago, mapped to the conduit. If Infleqtion has or plans Illinois sites, I'd like to share our map.

The plan

When	Move	Notes
Tue Oct 6	Email Kyle Hogan.	-
Thu Oct 8	Follow up with William Rollins.	-
Mon Oct 12	Confirm Infleqtion's Illinois footprint (news, LinkedIn).	-
Week of Oct 26	Goal: call with IT.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 16	Reply	Logged
Nov 13	Call held	Meeting logged

Guardrails

- Don't assume an Illinois site until confirmed.
- Credits used: ZoomInfo company and signals for 1 company; 1 Apollo person enrichment.
