

KIPP Chicago: no signals; find the technology lead

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: ZoomInfo, Apollo

2007 S Halsted St, Chicago	~245 staff	0 ZoomInfo signals	0 IT contacts found
STAGE Untouched. Owner unknown.	RUNNING NOW Not in any Lemlist campaign	LAST TOUCH None	NEXT STEP Fri Oct 9: find KIPP Chicago's technology lead

Bottom line

KIPP Chicago runs several campuses (about 245 staff, office at **2007 S Halsted**). ZoomInfo shows no signals, and Apollo found school leaders, people and external-affairs staff but no IT. The **Chief of External Affairs and Innovation (Milton R.)** may oversee technology. Find the technology owner and align with the E-Rate cycle.

What a school network is, in one analogy

A charter network is a chain of small branch offices. Each campus is a branch, and the WAN between them is the hallway. If one hallway is out, a whole school is offline on test day.

Signals worth citing

Signal	Source	So what for the opener
No intent or scoops	ZoomInfo	No trigger.
Chief of External Affairs and Innovation (Milton R.)	Apollo	Possible technology owner.

E-Rate	Schools buy WAN and internet circuits through the federal E-Rate program. Funding year 2027 requests (Form 470) post this fall and winter, and vendors bid on them. Confirm Crosstown has an E-Rate service provider ID (SPIN) before pitching.
