

Reaching Latitude.sh through Megaport's capacity planning

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo, Apollo

Megaport listed as Latitude.sh's parent	7 leads in Wave C, mostly Brazil	1 bounce (Sep 30)	0 replies
STAGE Wave C prospect. No deal.	RUNNING NOW CTF ABM - Latitude.sh (Wave C), 7 leads	LAST TOUCH Sep 29: call to CTO Eduardo Soubihe	NEXT STEP Mon Oct 5: email Brian Koenig (Head of Procurement and Capacity Planning)

Bottom line

Latitude.sh is a bare-metal cloud now owned by **Megaport** (ZoomInfo lists Megaport as parent). Its engineering team is largely in Brazil, and your Wave C list reflects that: a São Paulo CTO and network engineers, one bounced address and no replies. The person who buys capacity is **Brian Koenig, Head of Procurement and Capacity Planning** (since Jun 2025, ex-Backblaze supply chain), who hasn't been contacted. Megaport itself is an interconnection platform with a large Chicago presence, so Latitude may consume Megaport's network rather than buy fiber directly. Ask Koenig how Latitude sources metro capacity in US markets.

What Latitude is, in one analogy

Latitude rents out whole servers, like a landlord renting entire houses rather than rooms. Now that Megaport, a road-builder, owns the landlord, the question is whether the landlord still buys its own driveways or uses the parent's roads.

Signals worth citing

Signal	Source	So what for the opener
Megaport listed as parent company	ZoomInfo	Network decisions may sit with Megaport. Worth confirming.
Brian Koenig, Head of Procurement and Capacity Planning (Jun 2025), ex-Backblaze supply chain	Apollo	The buyer. Speaks vendor and capacity language.
No intent, news or scoops in the last 10 months	ZoomInfo	No trigger.

Work already in motion

When	Channel / campaign	What happened	Read
Sep 10-11	Wave C	LinkedIn steps skipped (no URLs); email 1	No replies
Sep 15-16	Wave C	Email steps skipped as 'already bounced'	-
Sep 18-28	Wave C, emails 2-3	To Soubihe, Sirqueira, Butryn	No replies
Sep 28-30	New leads	4 Brazil network engineers; Tiago D bounced Sep 30	-
Sep 29	Phone	Call to Eduardo Soubihe (CTO)	No notes

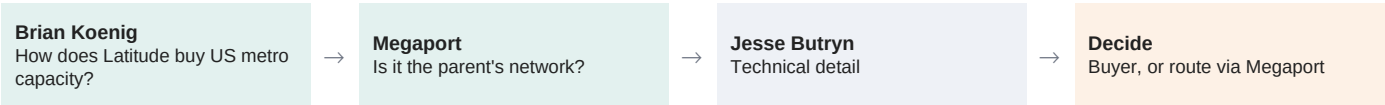

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Brian Koenig	Head of Procurement and Capacity Planning (Apollo)	n/a	Buys capacity.	Not contacted. brian.koenig@latitude.sh (verified)
Jesse Butryn	Senior Platform Engineer (HubSpot)	New Jersey (732)	US-based engineer.	Wave C, 2 emails
Eduardo Soubihe	CTO (HubSpot)	Brazil	Executive. Hold.	3 emails + call

Not worth chasing for this goal

Brazil-based network engineers and analysts (Sirqueira, Nogueira, Pigati, Junior, and the junior analysts in HubSpot) are not US fiber buyers.

How the access path should run

Messages, by contact

1. Brian Koenig Head of Procurement and Capacity Planning
Why them: The buyer; untouched.
Channel: Email Mon Oct 5 | Subject: Latitude's Chicago capacity
Brian, quick sourcing question. Since the Megaport acquisition, does Latitude still buy its own metro fiber in US markets like Chicago, or ride Megaport's network? I own underground fiber in Chicago and want to know whether to talk to you or to Megaport.

The plan

When	Move	Notes
Mon Oct 5	Email Brian Koenig.	-
Fri Oct 9	Let Wave C end for Brazil-based engineers.	-
Week of Oct 19	If Megaport owns it, hand to the right Crosstown owner for Megaport (partner account).	-
Oct 30	Qualify in or out.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 19	Know whether Latitude or Megaport buys Chicago fiber	HubSpot note
