

Lurie Children's: an interim CIO and strong network intent

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo

95	91	13	0
Networking/Telecom intent (Sep 26)	Data Center intent, audience A	Lurie contacts in HubSpot	replies so far
STAGE Prospect. No deal.	RUNNING NOW CTF ENT - Long tail (CISOs, foundation and affiliate network staff), added Sep 30	LAST TOUCH Sep 30: enrollments	NEXT STEP Mon Oct 5: email Karen Land (Manager, Network Operations)

Bottom line

Lurie Children's is an 8,000-person pediatric hospital at **225 E Chicago Ave**. ZoomInfo shows **Cloud 99, Networking/Telecom 95, Data Center 91 (audience A)**, Network Infrastructure 73, Bandwidth 73 and Equinix 73. **Christopher Scanzera is interim CIO**; leadership transitions often come with infrastructure reviews. The Long-tail campaign went to two CISOs, the foundation and the affiliate network, none of whom buy fiber. The real owners are **Karen Land (Manager, Network Operations)** and **Steve H. (Lead IT Network Engineer)**.

What Lurie is, in one analogy

A children's hospital is an ICU for its network: it needs a second line that doesn't run through the same wall as the first.

Signals worth citing

Signal	Source	So what for the opener
Cloud 99, Net/Telecom 95 (B), Network Infrastructure 73, Bandwidth 73 (Sep 26)	ZoomInfo intent	Network project likely.
Data Center 91 (A, Sep 5); Equinix 73 (Sep 19)	ZoomInfo intent	Facility research.
Christopher Scanzera, interim CIO	HubSpot	Leadership transition.

Work already in motion

Enrolled, but aimed at the wrong roles.

When	Channel / campaign	What happened	Read
Sep 30	CTF ENT - Long tail	Courtney Hardy, Brittany Ward, Aaron Despain (CISO), Kim Pham, Morgan Shea, Ron Isbell (CISO)	Wrong audience

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Karen Land	Manager, Network Operations (HubSpot)	Chicago	Runs the network.	Not contacted. kland@luriechildrens.org
Steve H.	Lead IT Network Engineer (HubSpot)	Chicago	Technical lead.	Not contacted
Deiserre Burns	Telecom Agent (HubSpot)	Chicago	Orders circuits.	Not contacted
Christopher Scanzera	Interim CIO (HubSpot)	Chicago	Sponsor.	Not contacted. Hold

Not worth chasing for this goal

CISOs, foundation (Children's Miracle Network), All Hands Health Network operations, user support.

How the access path should run

Messages, by contact

1. Karen Land Manager, Network Operations

Why them: Runs the network.

Channel: Email Mon Oct 5 | Subject: A second path for Lurie that's provably separate

Karen, for a hospital, two carriers aren't enough if both run through the same duct. Crosstown owns underground fiber in Chicago, on-net at Equinix and Digital Realty at 350 E Cermak, mapped to the conduit. I can show where our routes run relative to 225 E Chicago Ave. Worth 20 minutes?

2. Deiserre Burns Telecom Agent

Why them: Knows the circuit inventory.

Channel: Email Wed Oct 7 | Subject: Chicago conduit map (KMZ)

Deiserre, I can send our Chicago route map in KMZ so you can check Lurie's current circuits for shared paths. Want it?

The plan

When	Move	Notes
Fri Oct 2	Pause Long-tail steps for the CISOs and foundation staff.	-
Mon Oct 5	Email Karen Land.	-
Wed Oct 7	Email Deiserre Burns.	-
Mon Oct 12	Email Steve H.	-
Week of Oct 19	Goal: route review.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 16	Reply from Land, Burns or Steve H.	Logged
Oct 30	Route review held	Meeting logged

Guardrails

- Healthcare buyer: lead with resilience.
- Credits used: ZoomInfo company and signals for 1 company.
