Bottom line

MIAX is a NYSE-listed exchange group, with options and equities exchanges plus MGEX and **Dorman Trading, a Chicago futures firm (FCM)**. On **Sep 24 its FCM became an OCC clearing member**; OCC is in Chicago and has its own plan. Options volume is **up 25.5% year to date**, and ZoomInfo shows **Data Center intent 80**. A new clearing membership and rising volume mean new Chicago circuits. Lead with **Chaz Palmeri (Director, Systems and Network Operations)**; the CIO, **Douglas Schafer**, is the sponsor.

What MIAX is, in one analogy

MIAX just got a new key to the clearing house (OCC) across town. Every new key needs a road to the door, and ideally two.

How the access path should run

Messages, by contact

1. Chaz Palmeri Director, Systems and Network Operations

Why them: Owns the network; OCC news.

Channel: Email **Mon Oct 5 | Subject:** Diverse paths to OCC for MIAX's FCM

Chaz, congratulations on the OCC clearing membership. That means new connectivity into OCC in Chicago. OCC checks diversity down to the conduit; Crosstown owns underground fiber on-net at 350 E Cermak and Elk Grove and can show both paths on a map. Worth 20 minutes?

2. Tristan Pittman Senior Network Engineer

Why them: Technical follow-up.

Channel: Email **Thu Oct 8 | Subject:** Chicago conduit map (KMZ)

Tristan, I can send our Chicago route map in KMZ for the OCC and Dorman connectivity work. Want it?
