Bottom line

Mayer Brown is a \$2.2B global law firm headquartered at 71 S Wacker. In September ZoomInfo showed **Equinix 91, Networking/Telecom 91, Data Center 81, Digital Realty 73 and Bandwidth 73**. It's hiring a **Manager of AI Security** and a **Senior Manager of FinOps and AI Consumption** in Chicago, which points to AI workloads and the network behind them. The owner, **Stuart Galvin (Global Director of IT Infrastructure and Operations)**, was put in the international email-only campaign. Pull him out and write to him directly.

What Mayer Brown is, in one analogy

Adding AI to a law firm is like adding a second kitchen to a restaurant: the gas line from the street needs to be bigger and, ideally, doubled.

How the access path should run

Messages, by contact

1. Stuart Galvin Global Director, IT Infrastructure and Operations

Why them: Owner.

Channel: Email Mon Oct 5 | Subject: Mayer Brown's paths from 71 S Wacker

Stuart, if the AI work means more traffic between 71 S Wacker and your Chicago data center or Equinix, Crosstown owns underground fiber on-net at Equinix and Digital Realty at 350 E Cermak, mapped to the conduit. We can show diverse paths from Wacker in one picture. 20 minutes?

2. Mike Sherman Network Administrator

Why them: Technical.

Channel: Email Thu Oct 8 | Subject: Chicago conduit map (KMZ)

Mike, I can send our Chicago route map in KMZ so you can check current circuits for shared paths. Want it?

The plan

When	Move	Notes
Fri Oct 2	Move Galvin and Latif out of INTL.	-
Mon Oct 5	Email Stuart Galvin.	-
Thu Oct 8	Email Mike Sherman.	-
Mon Oct 12	Email Tricia Stephens-Adams on the AI angle if silent.	-
Week of Oct 19	Goal: path review.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 16	Reply from Galvin or Sherman	Logged
Oct 30	Path review held	Meeting logged
