

Molex: a Lisle headquarters, data center intent, and a contact list that needs fixing

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo

96 Data Center intent (Sep 12)	Lisle, IL global HQ	19 Molex contacts in HubSpot	~8 contacts who are supply planners, not IT
STAGE Prospect. No deal.	RUNNING NOW CTF ENT - Leaders (Dennis Curtis, Jim McIlvain); Practitioners (Sujay Kaushik + 8 supply planners)	LAST TOUCH Sep 30: enrollments	NEXT STEP Fri Oct 2: remove supply planners; Mon Oct 5: email Paul Babler (Data Center Manager)

Bottom line

Molex is a \$10B connector and electronics maker **headquartered in Lisle**, about 20 minutes from Elk Grove. ZoomInfo shows **Data Center 96**, Networking/Telecom 81, Networking Solutions 73, Bandwidth 73 and Digital Realty 72. The current campaign has a list-quality problem: about **eight "Network Supply Planners" were enrolled**, but they plan the supply chain, not IT networks. The IT contacts that matter are **Paul Babler (Data Center Manager)**, **Mary Thornton (Network Administrator)** and **Snehasis Gouda (Network Engineer)**. Molex also makes data center fiber connectivity (Dennis Curtis runs Premise Networks), so there's a second, partner conversation later.

What Molex is, in one analogy

We mailed the invitation to the warehouse instead of the IT office. Same building, wrong door.

Signals worth citing

Signal	Source	So what for the opener
Data Center 96 (B), Net/Telecom 81, DLR 72 (Sep 12); Networking Solutions 73, Bandwidth 73	ZoomInfo intent	Facility research from a suburban Chicago HQ.
HQ in Lisle, IL	ZoomInfo	Local; short build to our routes.
Premise Networks business (Dennis Curtis, President)	Lemlist	Partner angle, separate from IT.

Work already in motion

Enrolled, but with the wrong people.

When	Channel / campaign	What happened	Read
Sep 30	CTF ENT - Practitioners	Sujay Kaushik + 8 Network Supply Planners	Wrong audience; remove planners
Sep 30	CTF ENT - Leaders	Dennis Curtis (Pres, Premise Networks), Jim McIlvain	Partner angle

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Paul Babler	Data Center Manager (HubSpot)	n/a	Owens the data center.	Not contacted
Mary Thornton	Network Administrator (HubSpot)	n/a	Network.	Not contacted
Snehasis Gouda	Network Engineer (HubSpot)	n/a	Technical.	Not contacted
Dennis Curtis	President, Premise Networks (Lemlist)	n/a	Partner conversation.	Leaders

Not worth chasing for this goal

All "Network Supply Planner" and supply-chain titles; the operational excellence lead.

How the access path should run

Messages, by contact

1. Paul Babler Data Center Manager
Why them: Owns the facility.

Channel: Email Mon Oct 5 | Subject: Molex's paths from Lisle to Elk Grove and Cermak
Paul, if Molex is reviewing data center space or connectivity, Crosstown owns underground fiber on-net at Equinix CH3 in Elk Grove and at 350 E Cermak, mapped to the conduit. From Lisle that's a short, provably diverse build. Worth 20 minutes with the map?

2. Mary Thornton Network Administrator
Why them: Technical.

Channel: Email Wed Oct 7 | Subject: Chicago conduit map (KMZ)
Mary, I can send our Chicago-area KMZ so you can check Molex's current circuits for shared paths. Want it?

The plan

When	Move	Notes
Fri Oct 2	Remove the supply planners from Practitioners.	List cleanup.
Mon Oct 5	Email Paul Babler.	-
Wed Oct 7	Email Mary Thornton.	-
Mon Oct 12	Email Snehasis Gouda.	-
Week of Oct 19	Goal: route review in Lisle.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 16	Reply from Babler or Thornton	Logged
Oct 30	Route review held	Meeting logged

Guardrails

- Keep the partner conversation with Premise Networks separate from the IT sale.
- Credits used: ZoomInfo company and signals for 1 company.
