

Reaching R.J. O'Brien's network through StoneX

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo, Apollo

91 Data Center intent, audience A (Sep 12)	3 RJO leads, all paused Sep 28	StoneX listed as parent company	222 S Riverside Plaza HQ, Chicago
STAGE Tier A prospect. No deal.	RUNNING NOW CTF ABM - R.J. O'Brien (Wave A): all 3 leads paused by API Sep 28	LAST TOUCH Sep 23: email 2 to all three	NEXT STEP Fri Oct 2: read the Sep 10 replies; Mon Oct 5: email Shawn Nawrocki (StoneX)

Bottom line

ZoomInfo now lists **StoneX as R.J. O'Brien's parent**, and RJO's own network bench in Apollo has thinned to one APAC director. That means the network decisions for RJO's Chicago operation are likely moving to **StoneX's Chicago-based infrastructure team: Shawn Nawrocki (Director of Network Systems), Miguel Torres (Head of Infrastructure, ex-Citadel) and Rob Borrmann (Global Data Center Manager, ex-Equinix)**. RJO also showed a strong **Data Center intent score of 91 (audience A)** on Sep 12, which fits an integration project. HubSpot logs a reply from all three RJO leads on Sep 10, the day email 1 went out, and Lemlist paused all three on Sep 28. Read those replies first; then pivot outreach to StoneX's Chicago team with an integration angle.

What's happening at RJO, in one analogy

RJO is a century-old family restaurant that was bought by a national chain. The menu stays the same for a while, but the chain's facilities team soon decides which kitchens, suppliers and delivery routes survive. You want to be on the chain's approved supplier list when that review happens.

Signals worth citing

Signal	Source	So what for the opener
Data Center intent 91 (audience A), Sep 12, 2026	ZoomInfo intent	Large audience researching data centers. Consistent with consolidating RJO into StoneX facilities.
StoneX listed as RJO's parent company	ZoomInfo	Integration project. Decisions move to the acquirer's infrastructure team.
StoneX's network and infrastructure leaders are Chicago-based (Nawrocki, Torres, Borrmann)	Apollo	You can meet the real buyers locally. Ask about RJO integration directly.
Charles Marsh, now OCC's Director of Network Engineering, was StoneX's Global Network Operations Manager in 2023	Apollo	Possible warm reference once the OCC relationship matures. Don't use it before then.
All three RJO leads 'replied' Sep 10 per HubSpot; Lemlist paused them Sep 28	HubSpot / Lemlist	Probably out-of-office or auto-replies, but confirm. A real reply would change this plan.

Check first

StoneX is already in Crosstown's Apollo and Salesforce (imported Dec 2, 2025) under a different CRM owner. Before you email anyone at StoneX, confirm with your manager who owns StoneX, and position this as RJO's Chicago integration, which is on your book.

Work already in motion

When	Channel / campaign	What happened	Read
Sep 9-10	Wave A, visit + email 1	'Route diversity after the Zayo + Crown Castle consolidation' to Hussain, Barlas, Hansen	HubSpot logs replies from all 3 on Sep 10
Sep 14-21	Wave A, LinkedIn invite + follow	Invites and follows to all 3	None accepted
Sep 23	Wave A, email 2	'The part of your path map you can't see'	No replies
Sep 28	Lemlist API	All 3 leads paused at step 8	Reason not logged; check
Sep 30	CTF ENT Practitioners	Duplicate removed	Only in Wave A

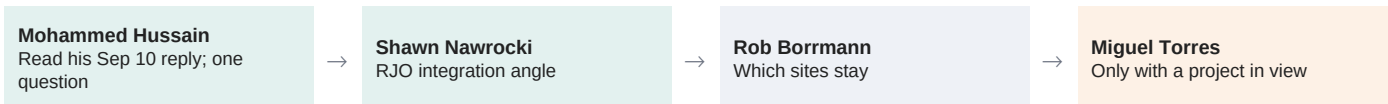

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Shawn Nawrocki	Director of Network Systems, StoneX, since Jan 2023 (Apollo)	Chicago	Owns network systems for the parent; likely decides RJO's future paths.	Not contacted. shawn.nawrocki@stonex.com (verified)
Miguel Torres	Head of Infrastructure, StoneX (Apollo). Ex-Citadel.	Chicago	Senior infrastructure owner, Chicago trading background.	Not contacted. miguel.torres@stonex.com (verified)
Rob Borrmann	Global Data Center / Facilities Manager, StoneX (Apollo). Ex-Equinix IBX.	Chicago	Knows which RJO and StoneX sites stay. Matches the data center intent.	Not contacted. robert.borrmann@stonex.com (verified)
Mohammed Hussain	Network Engineer, RJO (HubSpot)	Chicago (312)	Local RJO engineer; knows current circuits.	Paused. Sep 10 reply to review
Kashif Barlas	Senior Network Engineer (AVP), RJO (HubSpot)	UK	Senior, but offshore.	Paused. Sep 10 reply to review
Lawrence Hansen	Director of Technology, APAC, RJO (HubSpot)	APAC	Wrong region for Chicago fiber.	Paused

Not worth chasing for this goal

Anup Anand (StoneX Global Head of Infrastructure, UK) and Felipe Mendonca (Global Network Architecture lead, London) are global and senior; reach them only through Nawrocki or Torres. Lawrence Hansen covers APAC.

How the access path should run

Messages, by contact

1. Mohammed Hussain Network Engineer, RJO

Why them: Local engineer whose Sep 10 reply is unread in this plan.

Channel: Email in the Wave A thread, Mon Oct 5 (after reading his reply) | Subject: Re: route diversity after the Zayo + Crown Castle consolidation

Mohammed, thanks for getting back to me in September. With RJO joining StoneX, are RJO's Chicago circuits being moved onto StoneX's network, or staying as they are for now? I want to make sure I'm talking to the right team.

2. Shawn Nawrocki Director of Network Systems, StoneX

Why them: Likely owner of RJO's future network design.

Channel: Email, Wed Oct 7 (after ownership is confirmed) | Subject: RJO's Chicago paths, post-integration

Shawn, as RJO comes onto StoneX, its Chicago circuits out of Riverside Plaza will need a home. Crosstown owns an underground dark fiber ring in Chicago and maps every conduit we're in. Would a 20-minute look at where our routes run against StoneX and RJO's Chicago sites be useful while you're planning?

3. Rob Borrmann Global Data Center Manager, StoneX

Why them: Data center intent at RJO maps to his role.

Channel: Email, Mon Oct 12 | Subject: Which Chicago sites survive the RJO integration?

Rob, with your Equinix background you'll know the question: when two firms merge, which Chicago facilities stay, and how do they connect? We own fiber between several of the big Chicago data centers. If the RJO integration is re-planning sites, I'd like to be useful early.

The plan

When	Move	Notes
Fri Oct 2	Read the Sep 10 replies from Hussain, Barlas and Hansen in Lemlist/HubSpot; note why Lemlist paused them.	If any is a real reply, answer it first and adjust this plan.
Fri Oct 2	Ask your manager who owns StoneX in Salesforce.	Avoid an ownership conflict.
Mon Oct 5	Email Mohammed Hussain in thread.	Integration question only.
Wed Oct 7	Email Shawn Nawrocki (if cleared).	Add to HubSpot under RJO, tagged StoneX.
Mon Oct 12	Email Rob Borrmann.	-
Week of Oct 19	Call Nawrocki (Chicago) if no reply.	-
Week of Oct 26	Goal: 20-minute integration route review with Nawrocki and/or Borrmann.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 9	Sep 10 replies reviewed and StoneX ownership confirmed	HubSpot note
Oct 30	Conversation with StoneX network or data center lead	Call or meeting logged

Guardrails

- Don't contact StoneX until ownership is confirmed.
- Never mention Charles Marsh's StoneX history to anyone at StoneX or OCC without his permission.
- Credits used: 5 Apollo person enrichments (StoneX); ZoomInfo company and signals for 1 company.
