Bottom line

Sidley is a \$3.1B global law firm headquartered at 1 S Dearborn in Chicago. In September it showed some of the strongest facility intent on your list: **Networking Solutions 99, Data Center 92, Equinix 91 (audience A), Digital Realty 91, Networking/Telecom 90**, plus Colocation and Bandwidth. Equinix and Digital Realty at 350 E Cermak are exactly where Crosstown is on-net. The campaign went to the CISO, the IT portfolio director and business-IT staff. The infrastructure owners haven't been touched: **Thomas Cusick, Mark Vendl (Sr Network Architect)** and **Michael Delorto (Data Center Architect)**.

What Sidley is, in one analogy

Sidley is a tenant touring apartments in the building where we own the hallways. Introduce yourself before they sign a lease with someone else's hallway.

Signals worth citing

Signal	Source	So what for the opener
Networking Solutions 99, DC 92, Equinix 91 (A), DLR 91 (B), Net/Telecom 90 (Sep 12-26)	ZoomInfo intent	A colocation or network refresh is in motion.
Colocation 71 (B), Bandwidth 71 (B)	ZoomInfo intent	Supports the same story.
Legal hiring at a 12-month high	ZoomInfo scoop	Growth; context.

Work already in motion

Enrolled, but aimed at the wrong roles.

Not worth chasing for this goal

CISO, IT portfolio and business-IT directors, and Bill Tulin (a client-relationship role, not IT). Andrew Chan covers APAC.

How the access path should run

Messages, by contact

1. Thomas Cusick Director, Technology Infrastructure Services

Why them: Owns the facility decision.

Channel: Email Mon Oct 5 | Subject: Sidley's paths from 1 S Dearborn to Cermak

Thomas, if Sidley is reviewing Equinix or Digital Realty space in Chicago, Crosstown is on-net at both at 350 E Cermak, and at Equinix CH3 in Elk Grove, with underground fiber mapped to the conduit. We can show two provably separate paths from 1 S Dearborn. Worth 20 minutes?

2. Michael Delorto Data Center Architect

Why them: Technical design owner.

Channel: Email Wed Oct 7 | Subject: Chicago conduit map (KMZ)

Michael, I can send our Chicago route map in KMZ covering Equinix, Digital Realty and TierPoint, so you can check paths for shared conduit as you plan. Want it?

The plan
