

Siemens: a big name, but a low-fit list; focus on one US infrastructure owner

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo

91 Equinix intent, audience A	88 Data Center intent (Sep 12)	33 Siemens contacts in HubSpot	~25 contacts who are sales or non-US
STAGE Prospect. Low fit as listed.	RUNNING NOW CTF ENT - Leaders (Williams, Malik, Gonzalez, Lisa Meyer, Peagler, Juan Teruel); INTL (~13 "Head of" Smart Infrastructure and sales roles)	LAST TOUCH Sep 30: enrollments	NEXT STEP Fri Oct 2: cut the list; Wed Oct 7: email Lisa Meyer (Head of Site Services, Data Center)

Bottom line

Siemens (317,000 people, Munich) showed **Equinix 91 (audience A)**, Data Center 88, Networking/Telecom 86 and Digital Realty 80. But the HubSpot and Lemlist contacts are mostly **sales leaders for Siemens Smart Infrastructure, German regional IT and a contact in Venezuela**. None of them buys Chicago fiber. One person is relevant: **Lisa Meyer, Head of Site Services, Data Center**. Siemens also sells power and building systems to data centers (Jean-Paul Lorrier, Head of Sales for Hyperscale Data Centers), which is a referral conversation, not a sale.

What Siemens is, in one analogy

We sent invitations to everyone at a huge company picnic. Find the one person grilling (data center site services) and talk to them.

Signals worth citing

Signal	Source	So what for the opener
Equinix 91 (A), Sep 19	ZoomInfo intent	Facility research somewhere in the group.
DC 88, Net/Telecom 86, DLR 80 (Sep 12)	ZoomInfo intent	Same.
Lisa Meyer, Head of Site Services, Data Center	HubSpot, Lemlist	The one relevant contact.

Work already in motion

Broad enrollments with poor fit.

When	Channel / campaign	What happened	Read
Sep 30	CTF ENT - Leaders	Neil Williams, Mustafa Malik, Melina Gonzalez, Lisa Meyer, Grant Peagler, Juan Teruel (Venezuela)	Mostly irrelevant
Sep 30	CTF INTL	~13 Smart Infrastructure and sales "Head of" roles	Irrelevant

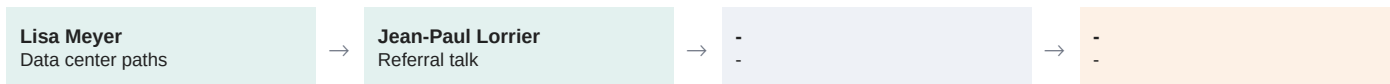

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Lisa Meyer	Head of Site Services, Data Center (HubSpot)	n/a	Data center owner.	Leaders
Jean-Paul Lorrier	Head of Sales, Hyperscale Data Centers (HubSpot)	n/a	Referral partner, not buyer.	Later

Not worth chasing for this goal

Smart Infrastructure sales, rail, German and UK regional IT, Venezuela.

How the access path should run

Messages, by contact

1. Lisa Meyer Head of Site Services, Data Center

Why them: The one relevant contact.

Channel: Personal email Wed Oct 7 | Subject: Siemens and Chicago data center paths

Lisa, if Siemens has data center sites or colocation in Chicago, Crosstown owns underground fiber on-net at Equinix and Digital Realty at 350 E Cermak, mapped to the conduit. Happy to share the map, or point me to whoever owns US connectivity.

The plan

When	Move	Notes
Fri Oct 2	Remove all sales, rail and non-US contacts from Leaders and INTL.	List cleanup.
Wed Oct 7	Personal email to Lisa Meyer.	-
Nov 2	If silent, mark Nurture.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 9	List cleaned	Lemlist audit
Oct 21	Reply or referral	Logged

Guardrails

- Low priority. Don't spend more than two touches without a US owner.
- Credits used: ZoomInfo company and signals for 1 company.

Sources

HubSpot contacts; Lemlist CTF ENT and INTL; ZoomInfo intent.
