

Getting past SpiderRock's polite silence

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo, Apollo

99 Networking/Telecom intent, audience B (Sep 5)	1 LinkedIn connection (Rory Fox, Sep 16)	~98 employees; one networking director	300 S Riverside Plaza HQ, Chicago
STAGE Tier A prospect. No deal.	RUNNING NOW CTF ABM - SpiderRock (Wave A), 3 leads	LAST TOUCH Sep 28 LinkedIn DM to Rory Fox with booking link; Sep 29 call task done	NEXT STEP Mon Oct 5: call Mike Eichin (Director, Networking)

Bottom line

SpiderRock scored **99 on Networking/Telecommunications intent** on Sep 5, the highest of any Wave A account, right before your sequence began. It is a Chicago-headquartered options trading platform (about 98 people) whose product is speed and reliability to institutional clients, so network paths are close to the business. Rory Fox accepted your LinkedIn invite but is UK-based; the real owner is **Mike Eichin, Director of Networking**, who has had two emails and no live touch. The plan is to call Eichin with a platform-specific question, and use the COO (a co-founder) only if the network team goes quiet.

What SpiderRock is, in one analogy

SpiderRock is a toll road operator for options orders: clients pay to drive their orders over SpiderRock's road to the exchanges. If a lane closes, clients reroute to a competitor's road. Your fiber is a second, separate bridge on that road.

Signals worth citing

Signal	Source	So what for the opener
Networking/Telecommunications intent 99 (audience B), Sep 5, 2026	ZoomInfo intent	Strong, recent and network-specific. The team was researching before your first email.
BMLL partnered with SpiderRock on cross-asset market analytics (Apr 24, 2026)	ZoomInfo news	More data flowing in and out. A soft 'growth means more paths' opener.
Three entities: Platform Services, EXS (Netherlands), Gateway Technologies	ZoomInfo, Apollo	Multi-site, multi-entity. Ask which entity owns Chicago connectivity.
Rory Fox (UK) accepted LinkedIn Sep 16, got two DMs and a call; no reply	Lemlist	Fox is a peer engineer abroad; useful for a referral to Eichin, not a buyer.

Work already in motion

When	Channel / campaign	What happened	Read
Sep 9-10	Wave A, visit + email 1	'Route diversity after the Zayo + Crown Castle consolidation' to Eichin, Fox, Samuel	No replies
Sep 14-16	Wave A, LinkedIn invite	Rory Fox accepted Sep 16	1 of 3 connected
Sep 17	LinkedIn DM	Conduit-level vs carrier attestation question to Fox	No reply
Sep 22-23	Wave A, email 2	Fox: 'what the diverse-path math looked like for a Chicago desk'; Eichin, Samuel: 'the part of your path map you can't see'	No replies
Sep 28-29	LinkedIn DM + call task	15-minute map request with booking link to Fox; call logged done	No reply

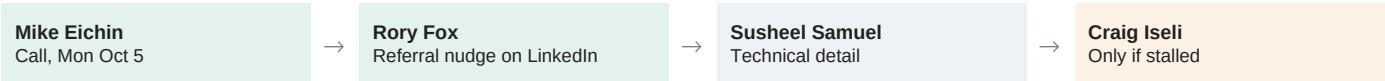

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
Mike Eichin	Director, Networking (HubSpot)	Chicago area (630)	Owens the network. Two emails, no phone contact yet.	Wave A, no reply. mike.eichin@spiderrock.net
Susheel Samuel	Network Engineer since 2019 (Apollo)	Florida (remote)	Hands-on; knows current carriers.	Wave A, no reply. Verified email
Rory Fox	Network Engineer (HubSpot)	UK	Connected on LinkedIn. Ask for a referral to Eichin, not a meeting.	Wave A, connected, no reply
Craig Iseli	COO and co-founder (Apollo)	Chicago	Owens operations and vendor spend. Escalation only after two weeks.	Not contacted. craig.iseli@spiderrock.net (verified)

Not worth chasing for this goal

Sridevi M. (Head of Data Technologies), Karen M. (UK operations lead) and Henk V. (COO of SpiderRock EXS in the Netherlands) are outside Chicago network decisions.

How the access path should run

Messages, by contact

1. Mike Eichin Director, Networking

Why them: The decision-maker, never reached live.

Channel: Phone Mon Oct 5, then email | Subject: Two separate bridges for SpiderRock's clients

Mike, Spencer at Crosstown Fiber. SpiderRock's clients are buying reliable access to the exchanges, so I'll ask directly: are your Chicago paths verified diverse at the conduit level, or by carrier attestation? We own underground fiber near Riverside Plaza and can show you exactly where it runs. Worth 15 minutes?

2. Rory Fox Network Engineer

Why them: Connected but silent; give him an easy one-line answer.

Channel: LinkedIn DM, Wed Oct 7 | Subject: n/a

Rory, I'll stop sending you meeting links. One question: is Mike Eichin the right person for Chicago fiber decisions, or someone else? A name is all I need.

3. Craig Iseli COO and co-founder

Why them: Escalation after two weeks of silence; frame as a business continuity question.

Channel: Email, Mon Oct 19 only if no engagement | Subject: SpiderRock's second path in Chicago

Craig, I've been trying to reach your networking team about physically diverse fiber in Chicago. We own an underground ring near Riverside Plaza. If continuity of client access is on your list this year, who should I talk to?

The plan

When	Move	Notes
Fri Oct 2	Pause Eichin in Wave A.	He gets a personal call.
Mon Oct 5	Call Mike Eichin; voicemail plus email.	8:15am CT.
Wed Oct 7	LinkedIn DM to Rory Fox (referral question).	-
Fri Oct 9	Second call to Eichin.	Afternoon.
Mon Oct 12	Email Susheel Samuel a technical question about current carriers.	Only if Eichin hasn't engaged.
Mon Oct 19	Email Craig Iseli (escalation).	Only after two weeks of silence.
Week of Oct 26	Goal: 15-minute route map review with Eichin.	Bring the Riverside Plaza segment of the KMZ.

What progress looks like (for management)

By	Milestone	How we will know
Oct 9	Live conversation with Eichin	Call logged

By	Milestone	How we will know
Oct 30	Route review held	Meeting logged; deal created

Guardrails

- SpiderRock is in Wave A only; no re-enrollment.
- Don't mention BMLL as if you know their data volumes; use it only as 'growth'.
- Credits used: 2 Apollo person enrichments; ZoomInfo company and signals for 1 company.
