

Vatic Labs: reach infrastructure through the COO's office

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: Apollo

NY HQ (HubSpot lists New York)	0 ZoomInfo match	1 contact (operations)	0 touches so far
STAGE Untouched prospect. No deal.	RUNNING NOW Not in any Lemlist campaign	LAST TOUCH None	NEXT STEP Wed Oct 7: email Bolivar Languido for a referral to infrastructure

Bottom line

Vatic Labs is a New York quantitative trading firm. ZoomInfo couldn't match it, and it has moved its domain to **vaticlabs.ai**. Apollo found one relevant person: **Bolivar Languido, Office of the COO and Head of Operations and People**, who has been at the firm since 2014 and has a verified email. In a small quant shop, the COO's office often signs vendor contracts. Ask him who runs infrastructure.

What Vatic is, in one analogy

Vatic is a building with the directory taken down. The front-desk manager (operations) knows every office; ask him for the right door.

Bolivar, quick question: who at Vatic handles network connectivity into Chicago? Crosstown owns underground fiber there, on-net at 350 E Cermak and Elk Grove, and I'd like to send them our conduit map. Thanks for pointing me the right way.
