

memQ: an early-stage startup with no data; source manually

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot

0 Apollo or ZoomInfo matches	Sep 28 enrichment check: NO DATA	0 contacts	0 touches so far
STAGE Untouched. Low priority.	RUNNING NOW None	LAST TOUCH Sep 28: HubSpot enrichment check (no data)	NEXT STEP Fri Oct 9: find the founders on LinkedIn

Bottom line

memQ (memqinc.com) isn't in Apollo or ZoomInfo; the Sep 28 enrichment check in HubSpot says so. It's probably an early-stage Chicago quantum startup. The plan: find the founders on LinkedIn, send a single ecosystem note, and leave it there until it grows.

What memQ is, in one analogy

memQ is a name on a mailbox with no listing yet. Knock once, introduce yourself, and come back later.

Signals worth citing

Signal	Source	So what for the opener
Not indexed in Apollo or ZoomInfo	HubSpot note (Sep 28)	Early stage.

Work already in motion

Only the enrichment check.

When	Channel / campaign	What happened	Read
Sep 28	HubSpot note	ENRICHMENT CHECK: NO DATA	-

Who to reach, in order

Contact	Title (source)	Where	Why they matter	Status / email
(to find)	Founders	Chicago	Decision makers.	LinkedIn

Not worth chasing for this goal

-

How the access path should run

Find founders LinkedIn	→	One note -	→	-	→	-
---------------------------	---	---------------	---	---	---	---

The plan

When	Move	Notes
Fri Oct 9	LinkedIn search for memQ founders.	10 minutes.
Mon Oct 12	One ecosystem note if found.	-

What progress looks like (for management)

By	Milestone	How we will know
Oct 12	Founder identified	HubSpot contact created

Guardrails

- Low priority.
