

project44: a Chicago SaaS company; find the real IT network owner

Account entry plan for Spencer Refer | Prepared Thursday, October 1, 2026 | Sources: HubSpot, Lemlist, ZoomInfo

79 Networking/Telecom intent (Sep 12)	12-mo high IT open roles (Sep 5)	10 project44 contacts in HubSpot	0 replies so far
STAGE Prospect. No deal.	RUNNING NOW CTF ENT - Leaders (Nick Douglas); Practitioners (Palyska, Nielsen, Kucuk, Billie); INTL (Gardyan, Patel, Bednarek)	LAST TOUCH Sep 29-30: enrollments	NEXT STEP Mon Oct 5: email Marcin Palyska (Staff Network Engineer)

Bottom line

project44 is a Chicago supply-chain visibility platform (about 1,170 people, **Merchandise Mart**). ZoomInfo shows moderate intent (**Networking/Telecom 79, Bandwidth 79**), and **IT job openings are at a 12-month high**. There's a list-quality issue: most HubSpot "network" titles refer to project44's **logistics carrier network**, not IT. Only **Marcin Palyska (Staff Network Engineer)** looks like real IT. Treat this as a mid-priority account: one good email, then find the IT infrastructure lead.

What project44 is, in one analogy

At project44, "network" means trucks and ships. We need the person who runs the cables, not the person who runs the freight.
